

## Advance Information for Summer 2022

### A Level

### Sociology

### H580

We have produced this advance information to help support teachers and students with revision for the Summer 2022 examinations.

#### Information

- This Advance Information covers all examined components.
- For each paper the list shows the major focus of the content of the exam.
- There are no restrictions on who can use this Advance Information.
- You are **not** permitted to take this Advance Information into the exam.
- This document has **5** pages.

#### Advice

- The following areas of content are suggested as key areas of focus for revision and final preparation, in relation to the Summer 2022 examinations.
- The aim should still be to cover all specification content in teaching and learning.
- Topics not explicitly given in the list may appear in low tariff questions or via synoptic questions. (e.g., questions where students are asked to bring together knowledge, skills and understanding from across the specification).
- The Advance Information provides the focus of the content for questions with the highest mark tariff in each section, for each paper. The only exception to this is Component 3 Section A, where Advance Information has **not** been provided for this section.
- You should consider how you revise other parts of the specification, for example to review whether other topics may provide knowledge which helps your understanding in relation to the areas being tested in 2022.
