Aims:

IT is seen as beneficial to all members of the EWS School Community (referred to thereafter as ‘the school’) in supporting learning, teaching, research, administration and approved business activities. The School’s IT Facilities provide a number of integral services and, therefore, any attempt to misuse a computer system could cause significant disruption to other users at the school.

This Acceptable Use Policy is intended to ensure:

- that all users, will be responsible and stay safe while using IT devices, systems and services.
- that school devices, systems, services and users are protected from accidental or deliberate misuse that could put the security of these systems and users at risk.

The School’s IT Facilities should only be used to support learning, teaching, research, administration and approved business activities of the School. The IT Facilities must not be used for personal commercial, political, charitable, and other such activities unless expressly authorised by the school.

- 1.1 The school employs various measures to protect the security of its computing resources and of its user accounts. Users should be aware that the school cannot guarantee such security. Users should therefore engage in safe computing practices by backing up files, and promptly reporting any misuse or violations of this policy.
- 1.2 All devices that use the IT Facilities, and that are capable of supporting software updates, security updates and automatically updating anti-virus products, must be configured to perform such updates.

This will usually occur when a User is absent, either ill or on leave, and a situation arises which requires a rapid response. Users must be made aware that the School reserves the right to obtain access to files stored upon systems

and services owned by school, and that the privacy of personal material stored upon such systems and services in the event of authorised access cannot be guaranteed.

- 1.5 Users must abide by all applicable laws and school policies to protect the copyrights and intellectual property rights of others. - 1.6 Users' use of the IT Facilities must be in an ethical and legal manner and in accordance with School policies and procedures. Usage of the system to harass, defame, or invade the privacy of others, or to send or receive obscene materials, is not allowed and may result in disciplinary action under policies controlled by the School or prosecution under applicable laws.
- 1.7 Users must not use the IT Facilities to hold or process personal data except in accordance with the relevant GDPR processes and policies
- 1.8 Should a User wish to use the IT Facilities for personal, personal commercial, political, or charitable or other activity not directly related to their position within the School, permission must be expressly granted from the school.
